Mechatronics Engineer /Professor

As a kid, I've always been fascinated by the continuous innovation of technology. I've been interested on studying how mechanisms work and be an inventor in the future.

Alternatively, I am also interested in academics. If possible, I want to pass the learnings and techniques that I developed over the time of studying in the future.

Honors & Activities

- 3rd Place, Regional Science and Technology Fair 2018
- 1st Runner Up, Marathon of Minds: The Red Spartan Engineering Cup 2022
- Finalist (Top 9), The 48th Annual Nationwide Search for the Math Wizard 2022
- Finalist, AutoMathic 2022: Intercollegiate Engineering Mathematics Quiz Show
- Silver Medalist/Bronze Medalist/Honorable Mention in Various National and International Math Competitions (2019–2021)
- Candidate for DOST Youth Excellence in Science and Mathematics Award 2022
